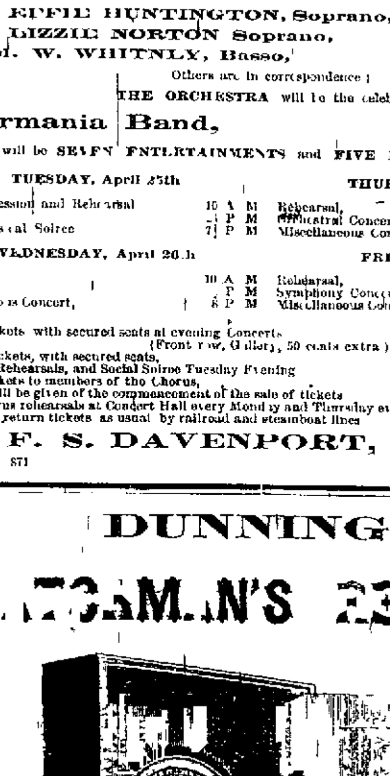
DUNNING'S WATCHMAN'S REGISTER



Has just been patented and is the cheapest, most effective, simple, accurate, and is worked with one eighth part of the labor of any other machine for registering watchman's time known. Many eminent men have examined it and pronounce it far superior to any machine known for that purpose in this Country or in Europe. This Machine will be required to be wound up every Monday morning and a new dial (made of cardboard) affixed, on which the watchman denotes the time accurately with a lead marker which can be seen by opening the door, as plain as the time on a small time piece.

No person interested in this machine will appreciate it so fully as the watchman himself, that is provided he means to discharge his duty in good faith, as it will clearly show to all interested that he has done so, and that to without any question or doubt.

The whole time occupied in noting his time through the night will not occupy one moment. The machine is graduated for the seven days in the week, but should the owner of the property watched be absent one or more days in that time and no one opens the machine it will denote the faithfulness of the watchman.

The cases are got up in good style from black walnut, and would be an ornament as a piece of furniture to any room or office. It is particularly adapted to Banking houses and all corporations where they keep a watchman.

The machinery or movement is a balance wheel lever manufactured by the most celebrated clock manufacturer in the U. S. For rights, machines or circulars, direct to JAMES DUNNING (owner of the patent) or to the FARMERS NATIONAL BANK of Bangor.

THE DIAMOND GLASSES,
Manufactured by J. E. SPENCER & CO., New York which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the MOST PERFECT, Natural, Artificial help to the human eye ever known.
They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond" on account of their hardness and brilliancy.
The Scientific Principle on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.
They are mounted in the finest manner, in frames of the best quality, of all materials used for that purpose. Their finish and durability cannot be surpassed.
CAUTION.—None genuine unless bearing their trade mark <> stamped on every frame.

THE RAILROAD BILLS

The following are the Acts of the Legislature to enable the City of Bangor to aid the construction of the Winterport Railroad and the extended construction of the Bangor & Piscataquis Railroad, which are to be submitted to the voters of this city on Thursday next.

STATE OF MAINE.

In the year of our Lord one thousand eight hundred and seventy.

An Act to authorize the city of Bangor to aid in the construction of the Winterport Railroad.

Be it enacted by the Senate and House of Representatives in Legislature assembled as follows:

SECTION 1. The city of Bangor is hereby authorized to loan its credit in scrip to the Winterport Railroad Company, in aid of the construction of their railroad from Winterport to some point within the limits of the city of Bangor, within one half of a mile of Penobscot river, to an amount not exceeding fifteen thousand dollars per mile, nor more than two hundred ten thousand dollars in all, upon its compliance with the following terms and conditions.

SECTION 2. If this act shall be accepted as hereinafter provided, and said company shall within two years from its approval locate its line and shall within four years from its approval complete their railroad from tide water in the village of Winterport to some point within the limits of the city of Bangor, within one half of a mile of the Penobscot river, to the approval of the mayor and aldermen of said city of Bangor, as a first class railroad with sufficient depots and turn tables, so that cars may pass over the same the whole distance, and shall perform the other conditions hereinafter named, then the said company shall be entitled to receive the full amount of fifteen thousand dollars per mile in scrip, as herein provided. Said scrip shall be signed by the city treasurer, and countersigned by the mayor of said city and shall bear date at the time of the issue thereof, and be made payable to the holder thereof in such sums as said directors may determine, with coupons for interest attached, reckoned at the rate of six per cent per annum, payable semi annually, free of government tax, the principal payable on the first day of April, in the year of our Lord nineteen hundred, in Boston, and be secured by the bond and mortgage of said company hereinafter mentioned which shall be executed and delivered to the city treasurer on the issue of said scrip.

SECTION 3. Concurrent with the issue and delivery of said scrip as aforesaid, the president and directors of said company, in their official capacity, shall execute and deliver, or cause to be executed and delivered, to the treasurer of said city, the bond of said company in the penal sum of double the amount of said city scrip authorized to be issued by this act, said bond shall be made payable to said city, and shall be conditioned that said company will duly pay the interest on such scrip of said city as shall be issued under and by virtue of this act, and said government tax, and also the principal thereof, according to the tenor of said scrip, and in all respects will hold and save harmless said city on account of the issue of the same. Said president and directors shall also, in case of the issuing of said scrip of said city, as provided in section two of this act, and simultaneously therewith, make execute and deliver, or cause to be made, executed and delivered to said city treasurer, the scrip of said company, payable to the holder thereof at the same time and for the same amount as the scrip then issued and delivered by said city treasurer to said company, with like coupons for interest attached, which scrip shall be held by said city as collateral security for the fulfilment of the conditions of said bond, and in default of any one of said conditions said city may from time to time sell said scrip, or any portion thereof, by public auction or auctions, in the cities of Bangor, Boston or New York or either of them, after sixty days notice in writing to the president, one of the directors or any three of the stockholders of said company, naming therein the time and place of sale. The net proceeds of all such sales shall be endorsed on said bond.

SECTION 4. The president and directors of said company are hereby authorized, and it shall be their duty in their official capacity, upon the receipt and delivery of said city scrip, and upon the delivery of said bond of said company to said city treasurer to secure the payment of the same, to execute and deliver or cause to be executed and delivered to said city treasurer a mortgage of said railroad and of all the property of said company, real and personal, which said company then has or may thereafter acquire, together with the franchise of said company without prior incumbrance, which mortgage shall be in due and legal form and executed according to the laws of this state, and contain apt and sufficient terms to secure to said city the fulfilment of all the conditions of said bond, and said mortgage so executed and delivered and recorded in the registry of deeds for the county of Penobscot, shall to all intents and purposes be and the same is hereby declared to be a full and complete transfer of said railroad of all the property of said company, real and personal, then owned by said company or subsequently to be acquired, wherever the same may be found or situated, and also of the franchise of said company, subject only to the conditions and exceptions contained in said mortgage.

SECTION 5. For the purpose of foreclosing said mortgage for conditions broken, it shall be sufficient for the said mayor and aldermen to give notice according to the mode prescribed in the revised statutes for the foreclosure of mortgages by publication of notice thereof, which may be published in a newspaper printed in Bangor, and a record thereof made within thirty days after the date of the last publication in the registry of deeds for the county of Penobscot, which publication and record shall be sufficient for the purpose of such foreclosure. Upon the expiration of three years from and after such publications, if the condition shall not within that time have been fulfilled, the foreclosure shall be complete, and shall make the title to said road, and to all the said property, real and personal, and said franchise, absolute in said city.

SECTION 6. If the directors of said company shall at any time neglect or omit to pay the interest and said tax, which may become due upon any portion of said scrip issued and delivered under the provisions of this act, or to pay the principal as it becomes due, or to comply with any of the conditions of said bond, the city of Bangor may take possession in the manner hereinafter provided, of the whole of said railroad, depots, [illegible] property, real and personal, of said company, and of the franchise thereof, and may hold the same, and apply the income thereof to make up and supply such deficiencies that may occur while the same was so held, until all deficiencies shall be fully made up and discharged. A written notice signed by the mayor and a majority of the aldermen, and served upon the president or treasurer or any director of said company, or if there are none such upon the stockholder of said company, stating that the city thereby takes actual possession of the whole line of the railroad and of the property and franchise of the company, shall be a sufficient actual possession thereof, and shall be a legal transfer of the same, for the purposes aforesaid, to the city, and shall enable the city to hold the same against any other claims thereon, except the claims of said city heretofore mentioned, until such purposes have been fully accomplished.

SECTION 7. All moneys received by or for the said railroad company after notice as aforesaid from any source whatever, and by whomsoever the same may be received, shall belong to and be held for the use and benefit of the city in manner and for the purposes herein provided, and shall, after notice given to the persons receiving the same, respectively be by them paid to the city treasurer, which payment shall be an effectual discharge from all claims of said company therefor, but if any person without such notice shall make payment of moneys so received to the treasurer of said company, such payment shall be a discharge of all claims of the city therefor against such person. All moneys received by the treasurer of said company after such notice, or in his hands at the time such notice may be given, shall be by him paid to the city treasurer after deducting the amount expended or actually due for the running expenses of the road, for the services of the officers of the company, and for repairs necessary for conducting the ordinary operations of the road. Such payments to the city treasurer shall be made at the end of every calendar month, and shall be by him applied to the payment of all the interest and such tax and principal due as aforesaid, and any person who shall pay or apply any moneys received as aforesaid in any manner contrary to the foregoing provisions, shall be liable therefor, and the same may be recovered in an action for money had and received, in the name of the city treasurer, whose duty it shall be to sue for the same, to be by him held and applied as hereinafter required.

SECTION 8. For the purpose of effecting the objects prescribed in the two preceding sections, the mayor and aldermen may cause a suit in equity to be instituted in the name of the city of Bangor, in the supreme judicial court in the county of Penobscot, against said company, directors, or any other person as may be necessary for the purpose of discovery, injunction, account or other relief, under the provisions of this act and any judge of the court may issue a writ of injunction or any other suitable process, or any such bill in vacation or in term time, with or without notice, and the court shall have jurisdiction of the subject matter of such bills, and shall have such proceedings and make such orders and decrees as may be within the power and according to the course of proceedings of the courts of equity, as the necessities of the case may require.

SECTION 9. If the said company shall at any time, neglect or omit to pay the interest which may become due upon any portion of the scrip issued and delivered under the provisions of this act or to pay the principal thereof, as it shall become due, or said government tax or to comply with any of the provisions of said bond, then said city of Bangor may take actual possession of said road with all its appurtenances, and manage the same as fully as a board of directors of said company for the time being, may appoint the requisite officers and agents and discharge the same, may fix the rate of fare and tolls subject to the restrictions of the charter of said company, and may demand and receive the same with the right to prosecute and defend suits in the name of said company, and may do all things which said company itself or the directors thereof might or could lawfully do, and after paying the running expenses said city may apply sufficient of the earnings of said road to keep it and its buildings and equipment in repair, and to prevent any deterioration thereof and to provide or such new rolling stock as may be necessary, and then to apply the residue of said earnings to the payment of said interest coupons, and scrip or bond as aforesaid and government tax, and whenever said interest and all dishonored coupons, scrip or bonds secured by said mortgage referred to in this act shall have been paid said city shall relinquish the control of said road and deliver any property of said company in its possession to said company, or its assigns. Provided however, said city, its officers or agents while operating said road under the provisions of this section, shall not be liable, except for malfeasance or fraud, and shall have the right to apply any funds received from the earnings of said road, to pay any damages that may arise in the management thereof, for which said city shall be liable in law to third parties, and the delivery back to said company any property of said company in its possession shall be no discharge of its lien thereon, nor prevent said city from again taking possession of said road and property on any future breach of the condition of said bond.

SECTION 10. If the said company shall after notice of possession as aforesaid, neglect to choose directors thereof, or other necessary officers or none such shall be found, the mayor and aldermen of the city shall appoint a board of directors, consisting of not less than seven persons, or any other necessary officers and the persons so appointed shall have all the power and authority of officers chosen or appointed, under the provisions of the act establishing said company, and who shall, upon their acceptance of such offices, be subject to all the duties and liabilities thereof.

SECTION 11. As an additional or cumulative protection for said city, all liabilities which by said city may be assumed or incurred under or by virtue of any of the provisions of this act shall at the time and by force thereof, and for the security and payment of the same, create in favor of said city, a lien on the whole of said road, its franchise, and all its appendages, and all real and personal property of said company, which lien shall have preference, and be prior to all other liens and incumbrances whatever, on all of said road wherever the same is now, or may hereafter be located, and on said franchise, and on all other property real and personal of said company, and said lien shall be enforced and all the rights and interests of said city shall be protected, when necessary, by suitable and proper judgments, injunctions or decrees of the supreme judicial court in a bill or bills in equity which power is hereby specially conferred on said court, and it is hereby provided that the said lien provided for in this section shall not be deemed waived or ineffectual by the acceptance on the part of said city, of any mortgage or other securities contemplated by the provisions of this act or otherwise.

SECTION 12. The city shall appoint three of the directors of the said railroad company who shall be chosen annually by the city council in joint ballot before the annual meeting of said company for the choice of their officers, who shall have the same authority in transacting the business of said company, and who shall be entitled to like compensation from the company as any other directors. But the right to choose such directors shall cease when the loan contemplated is extinguished.

SECTION 13. This act shall not take effect or be of any force until the city council of said city, by a concurrent vote of at least two-thirds of the members of each branch of the city council, present and voting, shall submit the same to a vote of the legal voters of the city, and the legal voters of the city in legal ward meetings, shall, by a vote of two thirds of all the votes thrown in the city at such meetings, adopt the same. But if within two years from the approval of this act said city shall accept said act by such concurrent vote of said city council and of said legal voters as aforesaid, then said act shall be in force thereafter, and be binding upon said city according to its true tenor and effect, but not otherwise. Said ward meetings shall be called, notified, held, returns made, declared and recorded, agreeably to the provisions of the city charter of said city for calling and holding ward meetings for the choice of city officers, and returns thereof.

SECTION 14. This act shall take effect when approved.

Approved March 19, 1870.

STATE OF MAINE.

In the year of our Lord one thousand eight hundred and seventy-one.

An Act to enable the city of Bangor to aid the Bangor and Piscataquis Railroad Company in the extended construction of its railroad.

Be it enacted by the Senate and House of Representatives in Legislature assembled as follows:

SECTION 1. The city of Bangor is hereby [illegible] to loan its credit [illegible] to the Bangor and Piscataquis Railroad Company, to aid in the extended construction of its railroad on a line hereafter to be located and built under its charter as at present revised and amended, from some point on the line of its road at or near its present terminus, in Foxcroft, westerly or northerly towards Moosehead lake to an amount not exceeding the rate of fifteen thousand dollars per mile, upon its compliance with the following terms and conditions.

SECTION 2. If this act shall be accepted as hereinafter provided, and said company shall, within three years of its approval, locate the line of its railroad and shall within six years from its approval complete said road from some point in the line of its road at or near its present terminus in Foxcroft to some point at or near Moosehead lake, to the satisfaction of the mayor and aldermen of said city of Bangor, as a first class railroad in good running order, so that cars may pass over the same the whole distance from or near said terminus, and shall perform the other conditions hereinafter named, then said company shall be entitled to receive the full amount of scrip of fifteen thousand dollars per mile and at that rate for such part of said line of said railroad as shall from time to time be so completed as hereinafter provided.

SECTION 3. When said company shall construct to the satisfaction of the mayor and aldermen of said city five miles of its said railroad from said first named point in its said line westerly or northerly towards said lake so far that the track shall be graded and the rails laid so that cars may run safely over the same they shall certify that fact to the treasurer of said city, and said company shall be entitled to receive from him twelve thousand dollars of said scrip, per mile, and so on and in like manner and at that rate for every additional five miles or fractional part thereof so constructed, till the whole line from said first named point to some point at or near said lake shall be so constructed and when said company shall completely finish to the satisfaction of said mayor and aldermen five miles of its said road on said line westerly or northerly towards said lake, from said first named point, they shall certify that fact to the treasurer of said city and said company shall be entitled to receive from him three thousand dollars of said scrip per mile and such other sums if any as said company may be entitled to receive at that time to make up said fifteen thousand dollars per mile, and at that rate and in like manner for every additional five miles or fractional part thereof till the whole line between said points is completely finished provided however, the whole amount of said scrip issued and delivered to said company under this act shall not exceed the rate of fifteen thousand dollars per mile of such completely finished railroad as a first class railroad. All of said scrip authorized to be issued by this act shall be signed by the city treasurer and countersigned by the mayor of said city, and shall bear date of the first issue and delivery thereof and be payable in Boston to the holder thereof, and be of such denominations as said directors may determine, with coupons for interest attached at the rate of seven per cent per annum, payable semi annually on the first day of April and October in each year free from government internal revenue income tax, the principal and interest payable in the lawful money of the United States and the principal payable the first day of April in the year of our Lord one thousand eight hundred and ninety nine.

SECTION 4. Concurrent with each issue and delivery of said city scrip, the president and directors of said company in their official capacity shall execute and deliver or cause to be executed and delivered to the treasurer of said city for said city the bond of said company the penal sum in said bond to be double the amount of the scrip authorized to be issued at that time. Said bond shall be made payable to the city of Bangor and be conditioned that said company will duly pay the interest on such scrip of said city as shall be issued and delivered at the time of the date of said bond free of said tax, and the principal thereof according to the tenor of said scrip and coupons, and in all respects will hold and save harmless said city on account of the issue of the same. The president and directors of said company shall also in case of the issuing of the scrip of said city as herein before provided, and simultaneously therewith make execute, and deliver or cause to be made, executed and delivered to the said city treasurer, the scrip of said company payable to the holder thereof at the same place and time and for the same denominations and amount as the scrip then issued by said treasurer to said company with like coupons for interest attached, which said scrip shall be held by said city as collateral security for the fulfilment of the conditions of said bond and in default of any one of said conditions said city may, from time to time sell said scrip, or any portion thereof, by public auction, or auctions, in the cities of Bangor and Boston, or either of them, after sixty days notice in writing to the president or one of the directors or any three of the stockholders of said company naming therein the time and place of sale, the net proceeds of all such sales shall be endorsed on said bond.

SECTION 5. The president and directors of said company are hereby authorized, and it shall be their duty in their official capacity upon the receipt of each issue and delivery of said city scrip, and upon the delivery of each of said bonds to said city treasurer to secure the payment of such city scrip as shall be issued and delivered to said company at that time to execute and deliver or cause to be executed and delivered to said city treasurer for said city, a mortgage of its said railroad from its terminus in Oldtown northward and westward into Piscataquis county to its terminus in Foxcroft, and thence westerly or northerly to some point at or near Moosehead lake whenever the same may be located and built under its charter as now revised and amended, and of all the property of said company real and personal, which said company then has or may thereafter acquire, together with all franchises of said company without prior encumbrance, excepting, however all incumbrances to said city prior to the date of said mortgage which mortgage shall contain apt and sufficient terms to secure the fulfilment of the conditions of said bond and be in due and legal form and executed by such officer of said company as said directors may direct by their vote, and said mortgage so executed and delivered and recorded in the registry of deeds in the county of Penobscot shall to all intents and purposes, be, and the same is hereby declared to be, a full and complete transfer of said railroad and of all the property of said company, real and personal, then owned by said company or subsequently to be acquired by it, wherever the same may be found or situated, and also the franchises of said company, with all its present amendments and additions, subject only to the conditions and exceptions contained in said mortgage, and to the prior rights, liens and interests of said city, under and by virtue of mortgages given by said company to said city, anterior to the date of the mortgage then to be given, and under and by virtue of this and two previous loan bills, one approved February twelve, eighteen hundred and sixty-eight, and the other February eleven, eighteen hundred and sixty-nine.

SECTION 6. For the purpose of foreclosing either of said mortgages for conditions broken it shall be sufficient for the said mayor and aldermen to give notice according to the mode prescribed in the revised statutes for the foreclosure of mortgages by publication of notice thereof, which may be published in a newspaper printed in Bangor, a record thereof made within thirty days after the date of the last publication, in the registry of deeds for the county of Penobscot, which publication and record shall be sufficient for the purpose of such foreclosure. Upon the expiration of three years from and after the first publication as aforesaid, if the conditions shall not within that time have been fulfilled, the foreclosure shall be complete, and shall make the title to said road and to all the said property, real and personal, and said franchise, absolute in said city. Said foreclosure shall not be considered as the foreclosure of any other mortgage now given by said company to said city, nor shall any of the proceedings or remedies under and by virtue of this act in any way affect the rights and remedies of said city or of said company, under and by virtue of other mortgages, and under and by virtue of said two acts or any other rights or claims which said city has or may have against said company.

SECTION 7. If the directors of said company shall at any time neglect or omit to pay the interest and said tax, which may become due upon any portion of the scrip issued and delivered under the provisions of this act, or to pay the principal as it becomes due, or to comply with any of the conditions of said bond, the city of Bangor may take possession in the manner hereinafter provided, of the whole of said railroad, [illegible] property, real and personal, of said company, and of the franchise thereof, and may hold the same, and apply the income thereof to make up and supply such deficiencies that may occur while the same was so held until all deficiencies shall be fully made up and discharged. A written notice signed by the mayor and a majority of the aldermen, and served upon the president or treasurer or any director of said company, or if there are none such upon the stockholder of said company stating that the city thereby takes actual possession of the whole line of the railroad and of the property and franchise of the company, shall be a sufficient actual possession thereof and shall be a legal transfer of the same, for the purposes aforesaid to the city, and shall enable the city to hold the same against any other claims thereon except the claim of said city heretofore mentioned until such purposes have been fully accomplished.

SECTION 8. All moneys received by or for the said railroad company after notice as aforesaid, from any source whatever, and by whomsoever the same may be received shall belong to and be held for the use and benefit of the said city in manner and for the purposes herein provided, and shall after notice given to persons receiving the same respectively be by them paid to the city treasurer which payment shall be an effectual discharge from all claims of said company therefor, but if any person without such notice shall make payment of moneys so received to the treasurer of said company such payment shall be a discharge of all claims of the city therefor against such person. All moneys received by the treasurer of said company after such notice or in his hands at the time such notice may be given shall be by him paid to the city treasurer after deducting the amount expended or actually due for the running expenses of the road for the services of the officers of the company and for repairs necessary for conducting the ordinary operations of the road. Such payments to the city treasurer shall be made at the end of every calendar month and shall be by him applied to the payment of all the interest and such tax and principal due as aforesaid and any person who shall pay or apply any money received as aforesaid in any manner contrary to the foregoing provisions, shall be liable therefor and the same may be recovered in an action for money had and received in the name of the city treasurer whose duty it shall be to sue for the same to be by him held and applied as hereinafter required.

SECTION 9. For the purpose of effecting the objects prescribed in the two preceding sections the mayor and aldermen may cause a suit in equity to be instituted in the name of the city of Bangor in the supreme judicial court in the county of Penobscot against said company directors or any other person as may be necessary for the purpose of discovery, injunction, account or other relief, under the provisions of this act and any judge of the court may issue a writ of injunction or any other suitable process in vacation or in term time with or without notice and the court shall have jurisdiction of the subject matter of such suits and shall have such proceedings and make such orders and decrees as may be within the power and according to the course of proceedings and make such orders and decrees as may be within the power and according to the course of proceedings of courts of equity as the necessities of the case may require.

SECTION 10. If the said company shall at any time neglect or omit to pay the interest which may become due and as it shall become due upon any portion of the scrip issued and delivered under the provisions of this act or to pay the principal thereof as it shall become due, or said government tax or to comply with any of the provisions of said bond, said city of Bangor may take actual possession of said road with all its appurtenances and manage the same as fully as a board of directors of said company for the time being, may appoint the requisite officers and agents and discharge the same, may fix the rate of fare and tolls subject to the restrictions of the charter of said company, and may demand and receive the same with the right to prosecute and defend suits in the name of said company and may do all things which said company itself or the directors thereof might or could lawfully do, and after paying the running expenses said city may apply sufficient of the earnings of said road to keep it and its buildings and equipment in repair, and to prevent any deterioration thereof and to provide such new rolling stock as may be necessary, and then to apply the residue of said earnings to the payment of said interest coupons, scrip or bonds as aforesaid, and government tax, and whenever said interest and all dishonored coupons, scrip or bonds secured by said mortgage referred to in this act shall have been paid, said city shall relinquish the control of said road and deliver any property of said company in its possession to said company, or its assigns; provided however said city, its officers or agents while operating said road under the provisions of this section shall not be liable except for malfeasance or fraud, and shall have the right to apply any funds received from the earnings of said road to pay any damages that may arise in the management thereof, for which said city shall be liable in law to third parties, and the delivery back to said company of any property of said company in its possession shall be no discharge of its lien thereon, nor prevent said city from again taking possession of said road and property on any future breach of the condition of said bond or any failure to hold and save harmless said city from all damages claimed by third persons.

SECTION 11. If the said company shall after notice of possession as aforesaid, neglect to choose directors thereof or other necessary officers or none shall be found, the mayor and aldermen of the city shall appoint a board of directors, consisting of not less than seven persons, or any other necessary officers, and the persons so appointed shall have all the power and authority of officers chosen or appointed under the provisions of the act establishing said company, and they shall upon their acceptance of such offices be subject to all the duties and liabilities thereof.

SECTION 12. As an additional or cumulative protection for said city, all liabilities which by said city may be assumed or incurred under or by virtue of any of the provisions of this act shall at the time and by force thereof and for the security and payment of the same create in favor of said city a lien on the whole of said road, its franchise and all its appendages, and all real and personal property of said company owned and held by it at the date of the first mortgage hereinbefore authorized to be given, and all the property real and personal which said company shall thereafter acquire. Said lien shall continue till all the city scrip hereinbefore authorized to be issued shall be paid and cancelled, and all other liabilities and indebtedness not secured by prior mortgages on said road and property which lien shall have preference and be paid prior to all other liens and incumbrances whatever except as hereinbefore excepted in behalf of said city, on all of said road wherever the same is now or may hereafter be located and on said franchise, and on all other property real and personal, of said company, and said lien shall be enforced and all the rights and interests of said city shall be protected when necessary by suitable and proper judgments, injunctions or decrees of the supreme judicial court in a suit or suits in equity which power is hereby specially conferred on said court and it is hereby provided that the said lien provided for in this section shall not be deemed waived or ineffectual by the acceptance on the part of said city of any mortgage or other securities contemplated by the provisions of this act or otherwise.

SECTION 13. The city may appoint under this act two directors of said company, who shall be annually chosen by the city council in joint ballot before the annual meeting of said company for the choice of said officers, who shall have the same authority in transacting the business of said company, and who shall be entitled to like compensation from said company as any other director. But the right to choose such director shall cease when the loan contemplated shall be extinguished.

SECTION 14. This act shall not take effect or be of any force until the city council of said city, by a concurrent vote of at least two-thirds of the members of each branch of the city council, present and voting shall submit the same to a vote of the legal voters of the city in ward meetings, and the legal voters of the city in legal ward meetings shall, by a vote of two-thirds of all the votes thrown in the city at such meetings adopt the same. But if within one year from the approval of this act, said city shall accept said act by such concurrent vote of said city council, and of said legal voters as aforesaid, then said act shall be in force thereafter, and be binding upon said city according to its true tenor and effect, but not otherwise. Said ward meetings shall be called at such time or times as the mayor and aldermen may appoint, and be notified and warned, held, returns made, declared and re-

corded agreeably to the provisions of the city charter of said city for calling and holding war meetings for the choice of city officers, at the ensuing meeting

SECTION 10 This act shall take effect when approved

SATURDAY APRIL 15 1871

DISCRETION IN REVENUE REFORM

Mr Sherman proposes to ascertain by inquiry in what way the tariff levies can be most safely and speedily reduced It is possible that to satisfy the revenue reformers will be slightly right to the hands of the ultra free traders That the free-traders number among them many active and thoughtful members of the party cannot be doubted but the bulk of the people wish to make proper provision for the gradual liquidation of the debt and they know that the current expenses of the Government cannot be raised by duties The New York Times very boldly says that to make the sudden change in our financial system which the free traders demand would not only be costly but a very hazardous experiment. We shall be ready for a free trade at some future time but due preparation is needed for so great a revolution in our fiscal system If Republicans free trade will not vote upon voting for a Democratic ticket which supports their views, rather than for one of their own party who desires to keep down taxation they will not carry the party of the people with them Those who are for prudent revenue reforms are now entitled to attention They have work enough to do in dealing with them and their opinions which everywhere appeals to the reason and ties Mr Sherman's resolution is a careful discussion of a common topic and gives rise to a wise common purpose and have been the means of doing good service to even that section of the party which is at present in favor of making prudent revenue reforms

We have made immense progress towards getting off the debt and now the people require a little breathing space Without delay to transfer the burden to a remote posterity is only reasonable to hold that the expenses of a war which was fought for the benefit of all future comers should not be entirely borne by a single generation There must be some provision for the payment of so vast an outlay The strain has been very severe on taxpayers for some years past and now they have earned the right to appeal for relief to the Democratic party will propose in a vague way without taxation altogether but in proportion when they already rule it is not likely that they are able or willing to carry their promises to practice They not only want to do without money but they resort to measures for raising which have hitherto been thought to be constitutional Governor Hoffman in New York is an example of what may be looked for under a Democratic system of low taxation and spending them very few people would be desirous of seeing the Republicans turned out We can however do better than we have yet done and by avoiding the counsel of extremists on both sides, the wishes of the people generally can be satisfied without risk of sacrificing any important interest

The Boston Advertiser holds that the authorship of trickery in the passage of the revenue bill of Mr Hale is not borne out by facts It is necessary to say that the presence of a bill of this kind or any other of a particular member or committee and its passage by a vote of three to one by a majority of more than forty in a full house is an answer to any charge of underhand trickery that can be brought But the bill gain in that the committee was in which the bill was passed that the House approved of it and were surprised at any thing that had gone through so easily The committee consists of members of whom six Messrs Scofield Dawes Blair Thomas Kerr and Wright voted for the bill and Mr Shellabarger voted against it Two members only were for the bill—Mr Morgan a democrat and great ability in favor of the bill and Mr Kelley who was engaged in the Cuban matter argument. It may be that General Butler was more hard grieved at the vote but there is no room for other member of the committee to claim to have been so affected The leaders of the House permitted the bill to be hurried and put upon its passage and for the whole country had been notified by telegraph of Mr Hale's intention to press it as it was voted

The following is the concluding portion of Senator Ames plucky rejoinder to the speech of Frank P Blair

The Senator said oppressed crops out visibly He says Mississippi sent a vagrant negro to this Senate As to his merits to my late colleague I have only to say that in all the attributes which constitute the honorable and refined Christian gentleman Mr Revels stands great the honorable Senator's attempt to add to a comparison I by no means intend a compliment to Mr Revels I regret Mr President the necessity which compels me to occupy the time of the Senate with matters more or less personal But the Republicans of the South, white and black personal and political friends, are attacked the President and Congress called for their acts in behalf of an oppressed and long suffering people I am constrained to give facts showing in one State the baselessness of such denunciations and to bear testimony that the effort of your laws has been to sustain justice and protect humanity This discussion is not of my seeking Striking words and phrases are to me awkward weapons Inexperience inaptness and disinclination tend to keep me from all such controversies Yet, fealty to friends and justice to myself demand that I return, though with a feeble arm, all blows, even when dealt by an unjust uncourteous and scrupulous assailant.

The Argus understands that the bonds of the Maine Central Railroad Co issued prior to 1862 and held by Hon John Ware of Athens to the amount of $175 000 were paid by the company in gold on Tuesday last. It will be recollected that the company refused to pay in gold at the time they became due but offered to pay in greenbacks

In the United States Senate on Thursday Mr Thurman made a long argument against the centralizing tendencies of the Ku Klux bill After a speech by Mr Boreman, Mr Sumner advocated the bill The evening session was enlivened a little by the taking down which Frank Blair received at the hands of Senator Nye It was voted to take the vote to-day The House again took up the Senate amendment to the deficiency bill, repealing the law requiring the meeting of each new Congress on March 4. Messrs. Coburn, Garfield and Hoar opposed the repeal and Messrs Beck Banks, Cox and Dawes favored it. It was finally agreed to—99 to 98 The amendments appropriating $200,000 for a life-saving apparatus on the New Jersey coast, and $250,000 for feeding the Arrapahoe Indians, were also concurred in, the latter being reduced $50 000

The British Consul in Paris has warned all Englishmen to leave the city. The government denies that the insurgents have gained any successes of late. Thiers has told the conciliation party that as a condition of peace the insurgents must first lay down their arms. The attack by the government troops on Tuesday was not so successful as was hoped. Porte Maillot was shattered, but the principal effort was against Valerien. The government losses are heavy, and the communists claim they surrounded and cut off 3000 near Asnieres. Dombronski, the idol of the hour with the insurgents, was a Prussian spy during the siege, and he makes wonderful promises. The arrests by the commune are increasing in number Assy and Bergeret have been condemned to death

The Boston Journal's Washington correspondent says that Mr Sumner's eloquent and uninstakable remarks on the Ku Klux bill on Thursday created quite a sensation among the Democrats, who had evidently hoped that he might become estranged from his political associates Mr Thurman at once arose and asked if the Senator from Massachusetts intended to vote for the bill Mr Sumner did not at first hear the question, but when it had been repeated he replied firmly I do Mr Thurman was evidently expecting a different response, and he at once began to assail Mr Sumner for supporting what he styled a bill to confer power upon the President to declare war against the white people of the United States

The Democrats of the New York Assembly are greatly troubled by the tie vote resulting from the resignat on of the pugnacious Irving of the 16th District of New York city On Friday Mr Frear introduced a bill for a special election to fill the vacancy and succeeded in carrying it to a third reading by a vote of 64 to 63 some Republicans illy having evidently been secured

GRAND LODGE I O of G T The Grand Lodge Independent Order of Good Templars of Maine assembled at Fluents Hall Portland at 3 o clock P M Wednesday The session was opened in the Grand Lodge Degree by the G W C T Rev Smith Baker, Jr, of Orono There were at the opening 150 members present besides 150 candidates for initiation

The following officers were present Smith Baker Jr G W C T, Sumner Basford, G W C Mrs O P Call G W V T H A Shorey G W S W L Hathorn G W T F H Merrill G W M M E Pierce, G W D M G H Lefavor, G W I G Joshua Nye P G W C T Vacancies in the list of officers were supplied by the appointment of Brothers O M Cousens as G W Chaplain and G F Marshall as G W O G

The new members about 200 in number were then initiated

The Grand W C Templar reported 37 new lodges instituted and some 600 temperance lectures during the year Also a large number of volunteer lectures have been given Thinks we should and may have at least one temperance lecture in each town in the State during the coming year Recommends the children organizations— the Cold Water Templars Would have the Grand Lodge appoint a Superintendent of these organizations

The Grand Worthy Secretary H A Shorey reported the number of lodges on books as 478 new ones organized 37, whole number of members in the order 21 000 number initiated during the year 6734 losses 1269 The Treasurer reported the finances in a good condition with upwards of $800 in the treasury

Wednesday evening a spirited temperance meeting was held in City Hall at which Rev O M Cousens presided and speeches were made by Mayor Kingsbury, Rev Smith Baker Jr of Orono Rev Mr Yonman of Springvale Rev Benj Freeman of Oxford, Rev Wm H Fostar of Cape Elizabeth and David Boyd of Rockland The attendance was large and the remarks interesting

A CURIOUS SOURCE OF GAIN In the course of time the public debt will be reduced quite a handsome figure by the loss of paper made by the government to do duty as money Of the first issue of $20,000,000 of fractional currency known as postal currency $4 440 000 remains unredeemed and it is probable that at least four millions of it will never be heard from again Of the second issue of $24 000 000 made in 1863, three millions and a quarter are outstanding and as it was printed on poor paper it is not believed that much more will be presented for redemption Thus it will be seen that about 15 per cent of the first two issues of fractional currency is lost or worn out a clear saving to the government of that amount What the losses of the other paper issues of fractional or whole currency have been or will be cannot be foretold yet but it is safe to say the amount will be large

A BRAVE GIRL A St Albans correspondent furnishes the Maine Farmer with the following interesting item of news

John Fields of this town had his barn struck by lightning on the 7th inst at about 4 o clock p m and burned to the ground in a very short time together with one new mowing machine three harnesses one sleigh about four tons of hay and most of his farming tools By the extraordinary efforts of his daughter and son in law his cattle and horses were saved The daring conduct of his daughter in entering among the frightened animals and driving them out while the fire was dropping upon her head burning it to a blister is worthy of mention by the sterner sex in similar circumstances She wielded the axe with the strength of a strong man, demolishing a hog pen and driving the animals from danger With great determination she strove to save the mowing machine, in her efforts to do which she was blistered by the heat and reluctantly compelled to give it up to the devouring element The property was not insured

POLITICAL AND PERSONAL

Alexander H Stephens has written a letter expressing approval of the Mobile Register's article refusing to accept the Reconstruction acts as irreversible facts and dead issues

The President it is said has given up his proposed California trip as he expects the Senate to be in extra session early in May upon the High Commission treaty

In Congress Thursday the Senate debated the Ku Klux bill until after midnight. The House 90 to 98 passed the Senate's amendment to the Deficiency bill, repealing the law requiring the meeting of each new Congress on the 4th of March

Mr Sumner has prepared a speech reviewing the entire foreign policy of Secretary Fish prompted in the first instance by the latter's paper on Mr Motley's letter It contains a number of very interesting letters from Mr Fish as yet unpublished, upon various international questions which he has had under discussion The speech may not be delivered during the present session

A Washington special says that Senator Sumner will probably make a speech on the Ku Klux bill, wherein he will take the most advanced ground of the radicals Should the Senator deliver this speech, he will take occasion to demonstrate to the satisfaction of all those who entertain doubts upon the subject that he is as sound in the Republican faith as any of those who have seen proper to question his party status

An examination of the Congress Directory for this Congress shows that there are in the House of Representatives twenty-eight members who served in the Confederate government of the rebel states in a military, executive or legislative position The Senate has one member so marked, though there are three striving for admission. Eighteen of the twenty-eight Representatives held commissions in the rebel army, from captain to major general.

According to a Washington special, private advices from various parts of the South state that the debate in Congress on the Ku-Klux bill and the agitation upon the subject in the newspapers has already had a decided effect upon the Ku Klux organizations, and it is believed that if the Senate promptly passes the bill, the President will not be compelled to execute it. The fact that he has full power to summarily punish the miscreants who have committed the outrages will preserve peace.

Of the twenty-two United States Senators from the ex-rebel States, either admitted or claiming seats, nine are of Northern birth, six from various Southern States, and seven are natives of the States which they represent. Nine of the thirteen Southern-born Senators are Republicans: one of the Democrats was born in Boston. Of the fifty nine Southern Representatives (Texas not being represented), thirty are Republicans Of the total, fifteen were born in Northern States, one in Ireland, though from childhood a resident of Georgia, thirteen are natives of various Southern States, and twenty-eight are natives of the States from which they serve Of the latter five are Republicans.

The crew of the whaler Romar, of New Bedford, Capt. Junegan, mutinied at the Marquesas Islands, on March 12th Seventeen mutineers escaped after severely wounding the first and second mates and took with them three boats, as they intended to return and run the ship ashore The captain put to sea.

Mrs Livingston D Shewell, attached to a company performing at Niblo's Garden, New York, died suddenly Friday morning of heart disease

Bear in Mind.

When disease has undermined the health and the physical system has become prostrated, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of this enemy to health are truly alarming for all such maladies Hostetter's Stomach Bitters have been found unsurpassed. By acting directly upon the digestive organs they remove the heavy, disagreeable feeling after eating, so often complained of by persons of a delicate temperament As soon as digestion is restored, the patient finds the strength invigorating and his general health improved

Thousands of persons certify that it may be relied on in all cases of weakness or nervous debility attendant upon sedentary habits. The generality of Bitters are so disagreeable to the taste that they are objectionable to a weak stomach. This is not the case with Hostetter's Bitters, which will be found mild and extremely pleasant. Balsamic plants, barks and roots contribute their restorative juices to render it soothing and strengthening Its basis is the only sure stimulant which has ever been produced, containing no fusel oil, or any other deleterious element. The most careful and skillful chemists have analyzed the Bitters, and pronounce them harmless. This is scientific testimony but the testimony of the hundreds of thousands who have experienced the preventive and curative effects of the GREAT VEGETABLE TONIC and ALTERATIVE of modern times is still more conclusive. In Fever and Ague, Dyspepsia, Biliousness, Nervous Complaints, Chronic Complaints and general debility it is as nearly infallible as anything in this fallible world can be

Soldiers of the War of 1812,

ATTENTION!

Congress has passed a law giving a Pension of $8 per month to the officers, soldiers and Seamen of the war of 1812, who served sixty days or over and to the widows of such as have died and who were married previous to 1815, thus doing justice to this brave and meritorious band of patriots I have all the rolls and records of this service and may be able to be found at any other place in this State to my knowledge

I will give every soldier the benefit of these records to establish his claim to a pension and I will assist him in the prompt and speedy prosecution of his claim If the soldiers discharge is lost these records are invaluable

The fee is fixed by law at $10 no charge made unless a pension is obtained

Application to be made in person at my office in Bangor or by letter giving name of Company officers, date and length of service &c

FORTY-SECOND CONGRESS

FIRST SESSION.

WASHINGTON April 14

SENATE

The Senate met at 10 o clock

Mr Howe stated that in replying to the recent speech of the Senator from Massachusetts (Sumner) on San Domingo he had not only combatted the Senator s position, but had indulged in some reflections which were wrung out of him by a conviction he could not resist that that Senator had been speaking in the interest of the Democratic opposition The declarations with which that Senator had closed his remarks yesterday on the pending bill had convinced him that the Senator s purpose was not what he (Howe) had supposed it to be and he tha[t] this was the opportunity to make this declaration. No one would doubt that he made it with a great deal more satisfaction than he did the remark previously submitted He thought he might be allowed to say in his own vindication that no one could suspect him of having wilfully made that mistake especially when it was considered that it was an inference drawn by a large portion of the Republican press and he might say by the entire Democratic press

Mr Sumner replied the Senator (Howe) did me injustice the other day and he should have known it, I on that occasion tried to save the Republican party from the responsibility for an act of wrong It was on that account among others that I spooke I am a member of the Republican party, faithful to it always, and I cannot see it made responsible for the violation of international law and the Constitution of the United States without interposing my humble effort to save it. In that spirit I spoke The Senator arraigned me when I was trying to save the Constitution to save my country and to save the party to which I belonged as much as the Senator from Wisconsin

The debate on the Ku Klux bill was then proceeded with

Mr Schurz said that from investigation and debate he had formed some conclusions in which partizan bias had no share The Ku Klux disorders in the South did exist to a formidable extent and they had a political tendency Their origin is not to be found in reconstruction acts and Congress was not the original Ku Klux as had been said Such outrages occurred in greater numbers immediately after the close of the war and an improvement took place after the passage of the reconstruction acts Such disorders were of usual occurrence after great social revolutions such as the sudden abolition of slavery The origin of the evil existed in the baffled pro slavery spirit producing a morbid sentiment which overawed timid people and obstructed the functions of justice Bad local governments had increased the difficulty the existence of which had to be admitted in several Southern States It might have been prevented had the honest and intelligent men of the South protected the rights of the emancipated people instead of driving them into the hands of unscrupulous men The remedy now could not be found in penal statutes

Mr Schurz went on to oppose those provisions of the bill which enlarged the national jurisdiction at the expense of the local self governments in violation of the spirit of the Constitution and creating constructive rebellion in order to invest the President with discretionary power to suspend the habeas corpus laws a law liable to abuse by partizan governments

Mr Schurz continued at great length and Mr Edmunds closed the debate in a lengthy reply to constitutional and other objections to the bill which he reviewed in detail

At 4 o clock the Senate proceeded to vote on the amendments on the bill reported from the Judiciary Committee

The question was first taken upon an amendment to add to the provision making it a high crime to injure in person or property any U S officer in the performance of his duty the words "or while engaged therein" Agreed to 40 to 28.

Mr Morton moved to amend the 4th section so as to give the President power to suspend a writ of habeas corpus until the end of the 42d Congress, March 4, 1873 Rejected, 2? to 42

An amendment extending the time within which the President may suspend a writ until the next session of Congress, was agreed to, 44 to 17

Mr Osborn moved to strike out so much of the bill as repealed the test oath for jurors in U S Courts Lost, 29 to 33

Mr Sherman moved an additional section assessing damages to persons and property upon the localities in which the outrages are committed. Agreed to, 30 to 25

Mr Trumbull moved to strike out the 4th section conferring upon the President discretionary power to suspend a writ of habeas corpus Rejected, 21 to 42

Various amendments proposed on the Democratic side were voted down and sundry alterations submitted by Mr. Edmunds adopted

Mr Blair moved as an amendment to add the House amnesty bill

Mr Edmunds made a point of order that the amendment not being germaine to the bill it could not be received.

Mr Trumbull thought the amendment entirely germaine, and it would do much to pacify the South

The amendment was finally withdrawn.

Mr Morton renewed Mr. Osborn's amendment to strike out the clause repealing the test oath for U S Jurors Carried—34 to 25 The effect is to continue the test oath as heretofore.

The bill was passed—4o to 19

Adjourned until to-morrow

HOUSE.

Mr Holman of Ind. renewed his proposition of yesterday, to allow the use of the Hall of the House on the 24th of May, to the Young Men's Christian Association—objected to by Mr Wood of N Y, and Mr McNeely, of Ill

Mr Beatty of Ohio, from Com on Printing, reported back the Senate concurrent resolution to reprint 20,000 additional copies of the report of the Commissioner on Education, with a substitute changing the number to 5,000 for distribution by the Commissioner, adopted after a long discussion, adopted 97 to 62.

Mr McKee called attention of House to a speech published in to-days Globe, purporting to have been made in the House by Mr. Garnett on the 5th of April, but which was not actually spoken, containing an article from the Vicksburg Herald, highly offensive to Senator Ames, characterizing him as a shoulder strapped puppy and poltroon, and most consummate liar and fool. He desired to bring the matter before the House, so that the House might visit on the author of that speech such condemnation as such a gross breach of privilege deserved.

Mr. Cox offered a defence of Mr. Garnett, to the effect that he being a new member he doubtless was innocent of any design to commit a breach of privilege of the House, and Mr. Garnett the member implicated, said he had not intended to commit any infraction of rules. He had his speech written, and if he had had an opportunity of delivering it he would have had the objectional articles read from the clerk's desk, and if objection had been made, he would of course have excluded it from his speech. He was willing now to have it excluded from the Globe.

Mr. Dawes of Mass expressed his opinion that the apology hardly went far enough.

Mr. Hardige of Wis, thought that the gentleman from Texas had made a clea thing of it.

Mr. Garnett said that he was willing to apologize to the House for publishing what was in violation of the rules, but further than that, he could not go in the way of an apology

Mr Butler of Mass, asked leave to offer a resolution, that whenever leave to print a speech was given to a member, he shall be pledged in honor that nothing personal or unparliamentary shall be contained in it, or any animadversion on any manner of the executive branches of the government or on any member of the House or Senate

Mr Farnsworth of Ill,—objected

Mr Butler—remarked that he thought that the member would have objected

Mr Garfield of O, offered a resolution, reciting the offensive article and declaring that Mr Garnett had thereby committed a gross breach of the privileges of the House, and should therefore be reprimanded by the Speaker, and directing the exclusion of the speech from the Globe

Mr Farnsworth of Ill,—personal matters were not always unparliamentary It is often necessary to be personal in order to speak the truth

Mr Butler of Mass,—Then let it be said and not printed behind a man's back, it is the act of a coward in the last moment of the session (the conclusion of the sentence was cut off by the Speaker's gavel)

Mr Garfield modified his resolution by providing simply for the exclusion of Mr Garnett's speech from the Globe, and it was agreed to Subsequently Mr Cox on ascertaining that the resolution excluded the whole speech instead of the obnoxious part of it, moved to reconsider the vote, and the matter went over for the present.

Mr Holman of Ind offered and advocated an amendment requiring banks to pay in proportion to their circulation the expenses of printing their own notes Messrs Farnsworth Kerr, and Beck favored it. Messrs Garfield, Lynch and others opposed the amendment, which was finally agreed to, 105 to 70 With out disposing of the bill the House adjourned until to-morrow

FAST DAY, passed very quietly in this city The services at the churches were quite largely attended, as also were the other meetings There was more pleasure riding notwithstanding the muddy streets than we have seen before in one day for a long time and during the afternoon it was about impossible to hire a team at the stables The usual crowds of loafers hung around the street corners, but were remarkably quiet, indeed we saw but two or three intoxicated persons on the streets during the day and evening — The shops and stores were generally closed and the day had much the appearance of Sunday as far as matters on the streets were concerned, save that young Bangor indulged quite freely in marbles hoop trundling and like out-door amusements Several parties of young men and boys tried to interest themselves in base ball but it was hard work and soon given up Altogether, Fast Day had very little appearance of "Public Humiliation Fasting and Prayer

SHOCKING ACCIDENT Early Thursday morning, a Welshman named Samuel Solomons employed in the quarry of the Bangor & Piscataquis Slate Company, at Brownville was on his knees charging a horizontal hole at the foot of the ledge, when in pushing in the powder with what is called a "spoon, the charge suddenly exploded Solomons head was terribly bruised and mangled his jaw shattered, one eye blown entirely out and his face left a mass of raw flesh—the skin being burned off His left arm was broken and it is feared that he received internal injuries which will prove fatal His clothes were set on fire and his fellow workmen in tearing them off dropped one burning piece into a keg containing some 12 lbs of powder, causing a second explosion from which, however, no damage resulted Cyrus McPherson who was assisting Solomons in charging the hole, was badly cut and burned but his injuries will probably not prove fatal though they are very severe The explosion was probably caused by the iron spoon striking a spark from a bit of flint in the hole Spoons made of iron have been used for thirty years by the workmen without accident Mr Abbott intends to preclude all possibility of a similar disaster in the future by supplying the quarry with copper spoons The Welshmen have all left work in the quarry until it is ascertained whether Solomons will live or die—The best medical assistance was sent for and both the injured men received every attention Solomons was a quarryman of long experience and was regarded as one of the best men employed by the company

EXCURSION OVER THE PISCATAQUIS RAILROAD At the invitation of the Directors of the Bangor and Piscataquis Railroad a party of about thirty gentlemen consisting of officers of the Company, members of the City Council and other prominent citizens on yesterday made an excursion over the road to Foxcroft returning in the afternoon The party left Bangor at about 8 a m in comfortably disposed in two monitor cars, and stopping at various points along the route to give an opportunity for inspecting the station accommodations and arrangements arrived in Foxcroft about noon Here carriages were in waiting, and the excursionists were conveyed to the hotels the larger number assembling at the Foxcroft Exchange where mine host Quimby had prepared a most bountiful and excellent dinner for the guests of the Company After doing ample justice to the good things provided in the dining hall two hours were very agreeably passed in looking about the pleasant towns of Foxcroft and Dover, which show many evidences of thrift and enterprise in the various manufacturing establishments that utilize the fine water power and the many new and tasteful buildings At the Foxcroft terminus much interest was manifested in examining the various departments for the accommodation of the road, including a neat and convenient depot engine house and turn table and the large freight depot which despite its commodious dimensions, bids fair (judging from the piles of merchandize) soon to become entirely inadequate to the requirements of the road — Hon A M Robinson of Dover one of the Directors and also one of the most zealous promoters of the enterprise was met at that place and J B Mayo Esq of Foxcroft also an active and influencial Director joined the party on their return trip Leaving the station about [illegible] p m the ride back was rendered exceedingly pleasant by the bright afternoon sunshine, and the party reached the city in good season to join their families at supper, having thoroughly enjoyed their day's dash into Piscataquis Expressions of satisfaction at the smoothness of the road the general character of its appointments and the abundant evidences at all points of increasing business and prosperity were unanimous and hearty, and the convictions of all were strengthened that we have only begun to feel the impetus of the important traffic which is to follow the extension of this road Business grows along the line and will continue to increase to an extent taxing all the facilities furnished for transportation — Through the assiduous courtesies of the Directors, Superintendent and employes, the excursion was made unusually enjoyable, and will be remembered with pleasure by every member of the party

BUSINESS ITEMS.

SECURE AND PROFITABLE. Parties having funds to invest or Government Bonds to exchange, will find on examination that no more thoroughly safe and desirable security can be had than the Bonds of the European & North American Railway. The mortgage of the Railway is ample to secure the Bonds. But, to add to the security, all the lands granted by the State (some *Eight Hundred Thousand Acres*) are also mortgaged for this purpose.

The sinking fund is an additional guaranty of ample provision for payment of the Bonds and all the Trustees are bound to receive the Bonds at par in payment for lands and to buy them at par from time to time, the Sinking Fund the probability of an early advance from their present price is palpable.

The Lands equal about Fourteen Thousand Acres to each mile of Road with which they are mortgaged, and comprise an area of TWELVE HUNDRED AND FIFTY SQUARE MILES—being nearly equal to the entire area of the State of Rhode Island (which is 1306 square miles) The business of the Road, even now, is very large, and will be greatly augmented on completion of the line (in September) by the traffic to and from the Provinces

Including this issue, the Entire Bonded indebtedness of this Road is but $3 000,000 On the portion to Winn (56 miles) from local business alone, the net receipts the first year (1870) equalled the interest on nearly *Two Millions of Dollars*, and on the same limited portion the receipts *thus* far this year are *twenty five per cent greater* than same time in 1870

Absolutely no better security can be bought than these Bonds, and the ready sales thereof show this to be the general opinion of investors

ABRAHAM LINCOLN

1809—1865

There was a heart—
A loving yearning tender human heart,
Set like a lily in a bed of thorns
Spotless and pure, yet shrinking not apart
From their rough fellowship, nor did it scorn
A closer contact with the mean and rude,
But breathing perfume from its snowy cup—
Its sweet incense over the noxious brood
Of evil its fair head to lift the fallen up,
And ever with unselfish toil and pain
Sought not its own, but still another's gain

There was a brain—
A busy throbbing, never idle brain
Heart prompted on its glorious mission sent
To break for aye the toiling bondsman's chains,
To heal the land by fierce dissensions rent,
Direct with steady front and undismayed
The doubts and fears of friends the threats of foes
To build anew the half dissevered braid
Of liberty and truth—Its who knows
The inmost thought of man alone can tell
What pangs were his who wrought so brave and well

There was a hand—
A strong skillful and willing hand
Failed not to toil beneath the galling will
Of heart and brain to quench the flaming brand
In treason's altars to uphold through ill
A flag and report the majesty of law,
To guide it onward to point afar
Of clear and morning star of peace to wave
In mute entreaties to upheave the iron bar
Of liberty regardless to waver not
Amid the trials of its toilsome lot

There was a crown—
A crown of unfailing martyr's crown
Which as it fell, was the more manifight
Of angel darts, they were dropping down
To pearly radiance from the drooping fold
Of forgiveness. Urbanity resored the last
Breath of a world—were a nation's tears—
Its chase and rare—a gift beyond all cost,
Which instructs in the ugly all the coming years
Shall read—while Freedom's other royal robes shall

THE

CENTRAL RAILROAD,

OF IOWA,

have now built and equipped, in first class manner, about

180 MILES OF RAILROAD,

which will complete their entire line, with the exception of laying the track on twenty five miles, which is already graded. They will then open

THE FIRST THROUGH LINE ACROSS THE STATE

from north to south, and, by making a slight detour at one point, they will give

DIRECT COMMUNICATION BETWEEN ST LOUIS AND ST PAUL

This line of Railroad will have very special advantages for both local and through business, besides such superior railroad connections as will secure to it a large portion of the carrying trade of the great Northwest. The

First Mortgage

7 Per Cent. Gold Bonds

which are issued upon this road, are limited in amount to $16 000 per mile (while many roads issue from $20 000 to $40 000) and are offered at 90 and accrued interest, in currency. About two millions of the half of these bonds have already been disposed of, leaving but a small balance unsold which are being rapidly taken.

The most experienced financiers agree that **First Mortgage Bonds**, to a limited amount upon a finished railroad which is well located for business are one of the very safest forms of investment.

Parties desiring to secure a first class security, based upon a railroad practically done, and in the hands of leading capitalists who have large pecuniary and business interest in its success, will do well to apply at the office of the Company, or any of its advertised agents, for a pamphlet and map showing the characteristics of the enterprise.

Holders of Government Bonds may exchange them for Central Iowa at a large present profit, besides a handsome increase of interest for a long term of years. Parties making such exchange will receive for each $1 000 Bond a $1 000 Central Iowa Bond, and the following difference in cash (less the accrued interest in currency upon the latter bond) and the annual interest, this calculation being based upon market prices of March 1st 1871.

PILES.

Many a person has suffered for years with Internal Bleeding, External or Itching Piles, and has tried, over and over again for a remedy to cure but in vain. Time is used to be, but things are changed. Improvements have been made and wonderful discoveries—one of the most important of the greatest benefit to mankind is Briggs' Pile Remedies, which are warranted to cure Piles in every form if used in times according to directions.

CORNS! CORNS!

What is more annoying than Corns? What can be more oppressive than Bunions? What is more painful than Ingrowing Nails? Let the victim answer. The most distressing of these torments can be immediately relieved and quickly cured with Dr J Briggs Allevator and Curative.

LUNG DISEASES!

Diseases, Coughs, Colds, Bronchitis, Asthma, &c—The above complaints seem to be increasing in prevalence, and if not taken in time, may lead to that dreadful and fatal disease, consumption. What criminality to neglect them when the result may be so terrible! Briggs' Throat and Lung Healer is a positive remedy for all diseases of the throat, lungs and chest—never failing when used in the morning of affliction.

An Ordinance Relative to the Erection of Wooden Buildings in Certain Limits.

Be it ordained by the City Council of Bangor, as follows

SEC. 1. No person shall hereafter erect any wooden building in the city of Bangor upon territory within the following limits

Beginning at the southerly line of the North American & European Railway, on a line with Front Street, thence running northerly to and up French street to State street, thence down State street to Harlow street; thence north-westerly up Harlow street to Franklin street; thence southerly through Franklin street and across Franklin Bridge to Columbia street, thence south-westerly up Columbia street to Union street, thence down Union street to Main street, thence southwesterly along Main street to May street, thence easterly through May street to Front street, thence along Front street northerly to the westerly corner of the Bridge of the European & North American Railway; thence easterly on the north side of said bridge across the Kenduskeag Stream to the easterly bank, thence easterly on the southerly line of said North American & European Railroad to the point begun at; Provided that nothing in this ordinance shall prevent the European & North American Railway Company erecting and maintaining a Bridge, with facilities for draws, which may be of wood and stone and other materials across the Kenduskeag Stream.

SEC. 2. No person shall hereafter remove any wooden building from other territory on to any territory included within the limits specified in the first section.

SEC. 3. No persons shall remove any wooden buildings from one portion of the territory specified in the first section, to another portion of said territory without first obtaining permission therefor of the Mayor and Aldermen.

SEC. 4. Be it further ordained, that any wooden building hereafter erected or removed upon said territory within said limits, except as aforesaid, shall be deemed a public and common nuisance.

AN ORDINANCE AMENDATORY OF ORDINANCE RELATIVE TO THE ERECTION AND REMOVAL OF WOODEN BUILDINGS.

SECT. 1. Any person or persons may erect or cause to be erected any wooden building within the limits specified in the Ordinance relative to wooden buildings, provided said building shall not contain more than two stories, nor exceed twenty feet in height, and the sides or parts of said building shall not exceed twenty feet in length and shall be so placed as to be in perfect conformity with the rest of the buildings in the street, except in cases where the Mayor and Aldermen shall grant permission in writing, and shall cause to be entered on the records of the City Council the reasons for such permission.

SEC. 2. Any person or persons who shall violate the provisions of this Ordinance, shall be fined not exceeding twenty dollars for each offence.

Passed April 3, 1871. In City Council.

75,000 Acres

OF GOOD

Timber Land

For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County New York.

Said timber consisting of White Hemlock, Spruce, Pine and Hardwood. The subscribers own two large tainteries located on the aforesaid track which will consume the Hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate. The timber is excellent in quality in all particulars. The aforesaid tract of land is easy of access being only from six to fifteen miles from both the Black River R.R. and Black River Canal which lead direct to the Albany Market. The land is comparatively level, well watered and good for farming purposes. Moose River, which extends through the tract, is a large stream and empties into Black River, where the aforesaid Canal leads into Black River. At this point, or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow, thus forming an unlimited water power, (we might say right in the Canal and at the Depot) to which Moose River will carry the immense amount of timber from the aforesaid lands.

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention. The land and timber can be purchased at a cheap rate or the timber alone permitted.

TESTIMONIALS

I regard Mr. Eddy as one of the most *capable and energetic* practitioners with whom I have had official intercourse.

CHARLES MASON Commissioner of Patents.

☞ I have no hesitation in assuring inventors that they can employ a man more *competent and trustworthy* and more cautious of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE
Late Commissioner of Patents.

Mr R H Eddy has made for me HIRTY application for patents having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on the case, and at very reasonable charges.

A New, Wonderful and Useful Invention,

CALLED A

Tidal Power,

Has been discovered, the services of many eminent scientific and experienced men have been employed in perfecting a method of obtaining power for driving machinery of all kinds.

Although the power is obtained from the rise and fall of the tide, machinery can be driven at all times and from the ebb of the tide with the same facility as from the flood, for similar purposes.

This Machinery is so simple and so little in the way that it can be placed in any wharf or mill, expense of the Machinery very trifling compared with the power.

It will run for years with at any expense and without any attention, as it is the power being continuously obtained and drives the machinery.

This power can easily and effectually be applied to raising Ships, saving the Government and thousands of dollars yearly, needing no attendants after being once set in motion.

This principle on which a continuous motion of the Main Shaft is insured in a given direction can be applied to Sewing Machines and prevent the possibility of the machine stopping in the middle of some job, and in which it breaks the thread, by using this principle in Sewing Machines, the hands of the operator are entirely at liberty to feed the work. Children can run them without trouble.

In manufacturing Sewing Machines for the future the Patent Wheels in them will be used in connection with a single or great saving in the manufacturing. This principle can be applied to every machine at a trifling cost.

The application of this principle can also be used to foot, thus the motion of the foot being half as rapid as and more speed attained than with treadles. It also saves the motion of the body by simply propelling the machine and favors the sick.

The "Close Pedals" for Sewing Machines constructed to embody the above name principle, and capable of being applied to Sewing Machines of every size and kind in Shops, are now being manufactured and in a few days may be seen at the clothing stores of R. C. Smart in Exchange Street in Bangor, and should by sewing machine from Eastern Maine of H. P. Howes, successor to
